## Academic Year 2023-2024, SEM I

# Report of Innovative Teaching Pedagogy

**Activity:** Flipped Classroom.
**Class:-** TE- 1
**Subject Coordinator:-** Ms. Reshma Kapadi
**Subject:-** System Programming & Operating System

**Date:-** 16/10/2023
**Number of Participants:-** 41
**Mode of Conduction:-** Offline

## Topics: Memory Management, Placement Strategies.

**Outcomes of the Session:**

1. Increase motivation and accountability for their own learning as students take ownership of their educational journey.
2. Engage in self-directed learning through pre-class materials, fostering a deeper understanding of course content.
3. Enhance communication and teamwork abilities through group discussions.

**Way of Conduction:-**

1. In a flipped classroom, students are provided with pre-class materials such as PPTs, Books, Videos or Online Lectures that cover the foundational content for a particular topic.
2. Students are encouraged to collaborate with their peers, discuss the material, and work together to solve problems.
3. Oral questions were asked during the class to know the student's understanding and provide immediate feedback.
4. Students were asked to upload their content on the given link for future reference.
