

THE 3RD INTERNATIONAL CONFERENCE ON LIFESPAN INNOVATION ICLI2027

28-30 JULY 2027
PUNE, INDIA

Welcome to the 3rd International Conference on Lifespan Innovation

The event operates in a hybrid format from July 28 to July 30, 2027, hosted by **Marathwada Mitra Mandal's College of Engineering, Payap University**, and **Association of Thai Innovation and Invention Promotion (ATIP)** as the main hosts in cooperation with international partners. The conference provides an interdisciplinary forum for emerging technologies, engineering solutions, and innovation strategies. These advancements promote healthy longevity, lifespan well-being, and quality of life.

According to the Abstracting & Indexing of proceeding series in **Advances in Health Sciences Research (Atlantis Press, part of Springer Nature)**, we are pleased to announce that selected titles, after double-blind review by three peer reviewers will be submitted for evaluation in CPCI (part of Clarivate's Web of Science), and where applicable, they are also submitted to Ei Compendex and Scopus (Subject to acceptance).
